International Network Theatre in Prison – INTiP

UNESCO/Paris and Shanghai/China, 8 August 2019

### **International Network Theatre in Prisons (INTiP) accepted as Partner Organization of the International Theatre Institute (ITI)**

Dear Vito Minoia

With great pleasure I would like to announce to you that during the 150<sup>th</sup> Executive Council Session of the International Theatre Institute ITI, the members of the Executive Council have decided unanimously that your organization, the International Network Theatre in Prisons – INTiP, is officially accepted as a Partner Organization of the International Theatre Institute.

ITI is partnering with other organizations if they are following similar goals and if they are in alignment of the goals of UNESCO. There are many opportunities that ITI is giving to Partner Organizations such as being able to attend the ITI World Congress and other global events, distributing information about activities and calls over the ITI website or the ITI newsletter, being invited to gatherings of Partner Organizations, members of the Partner Organization being able to participate in the ITI Committees and Project Groups and also to suggest collaboration projects on a global level between WPI and ITI. Furthermore, your organization will be put to the list of the ITI Partner Organization with a link to the INTiP website.

I hereby officially welcome the INTiP as a Partner Organization of ITI.

With partnering with INTiP, ITI is hoping to increase the value of the performing arts on a global basis and to make this world a better place, with a rich culture, mutual understanding and peace available for everyone.

With very best regards

Tobias BIANCONE  
DG ITI
